Frankenstein

Victor Frankenstein dreams of creating life.

As lightning flashes across the sky, his creature stirs.

Will it be the perfect being he imagines, or a monster?

Frankenstein is an 1818 novel written by English author **Mary Shelley**.

Shelley was born in 1797,she started writing the story when she was 18 years old.

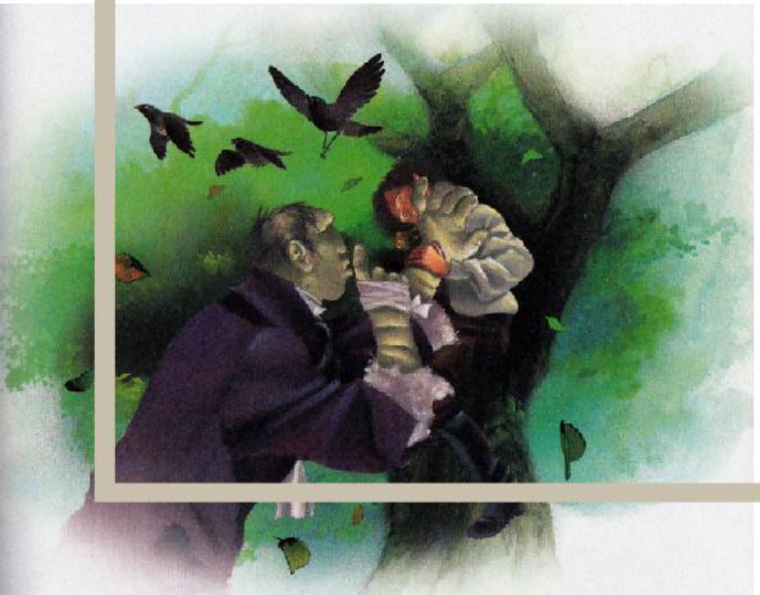
She wrote other books such as **Valperga** (1823) and **The Last Man** (1826) .

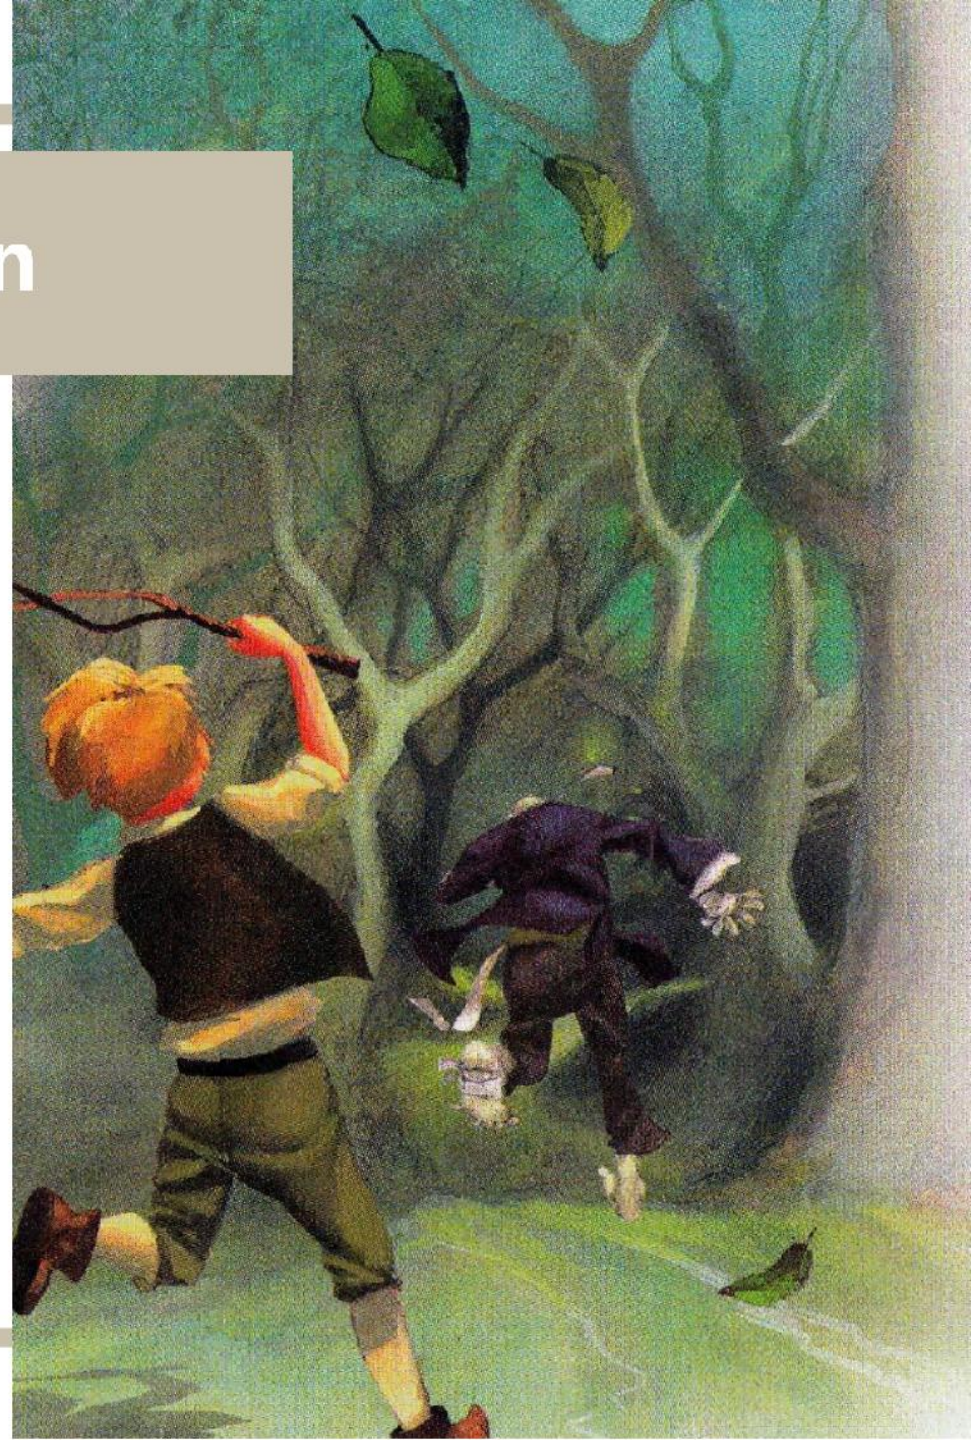
At First

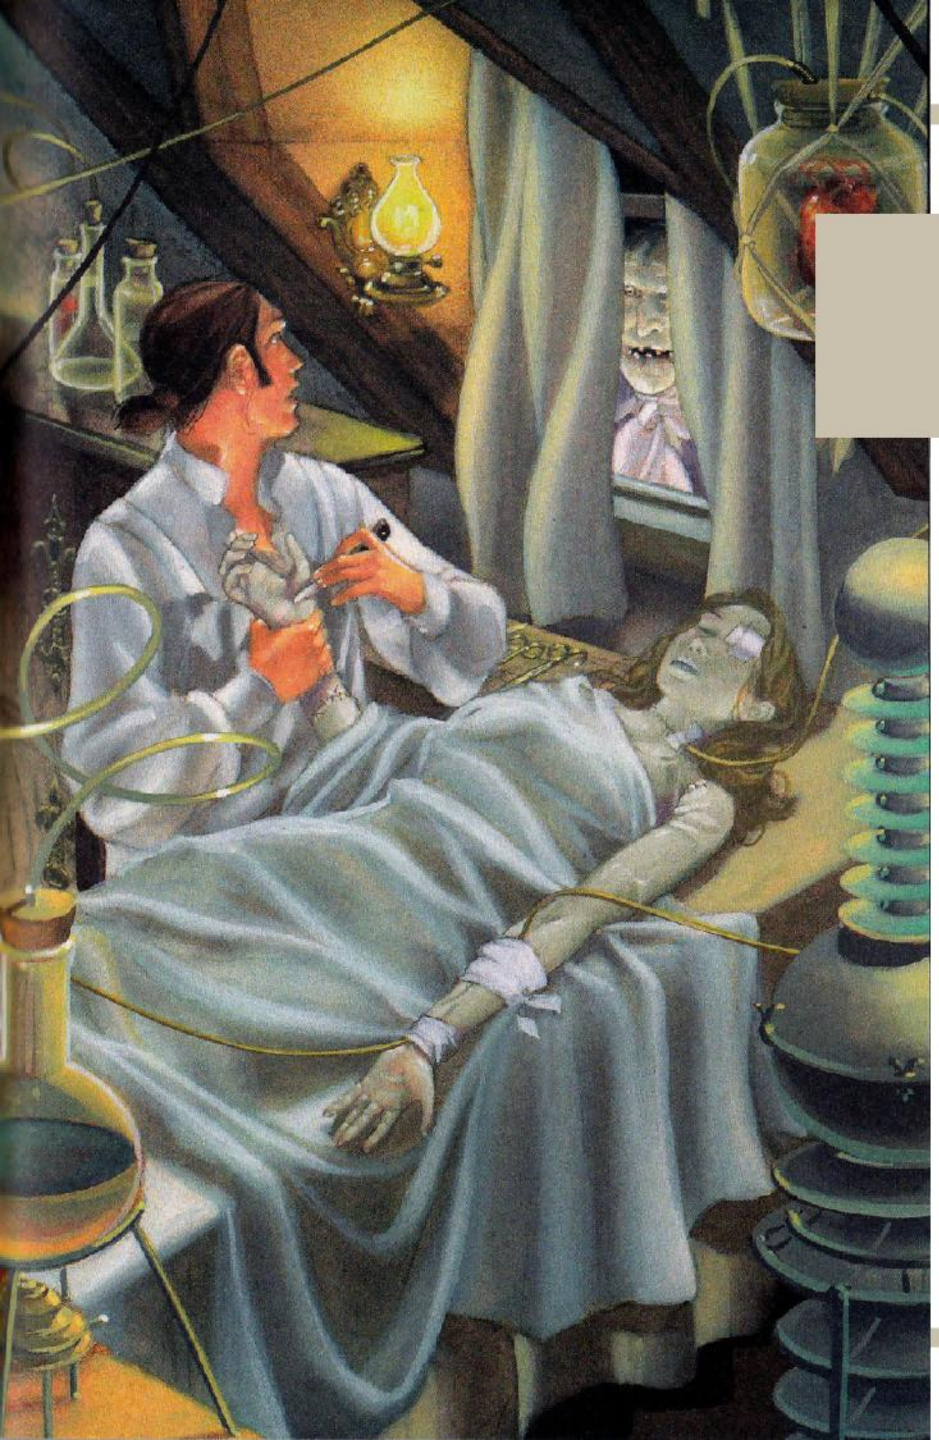
Victor Frankenstein stole dead bodies and created a monster.

Then

The monster got out,but he was too ugly. Many people feared by his appearance and they screamed when they saw him.

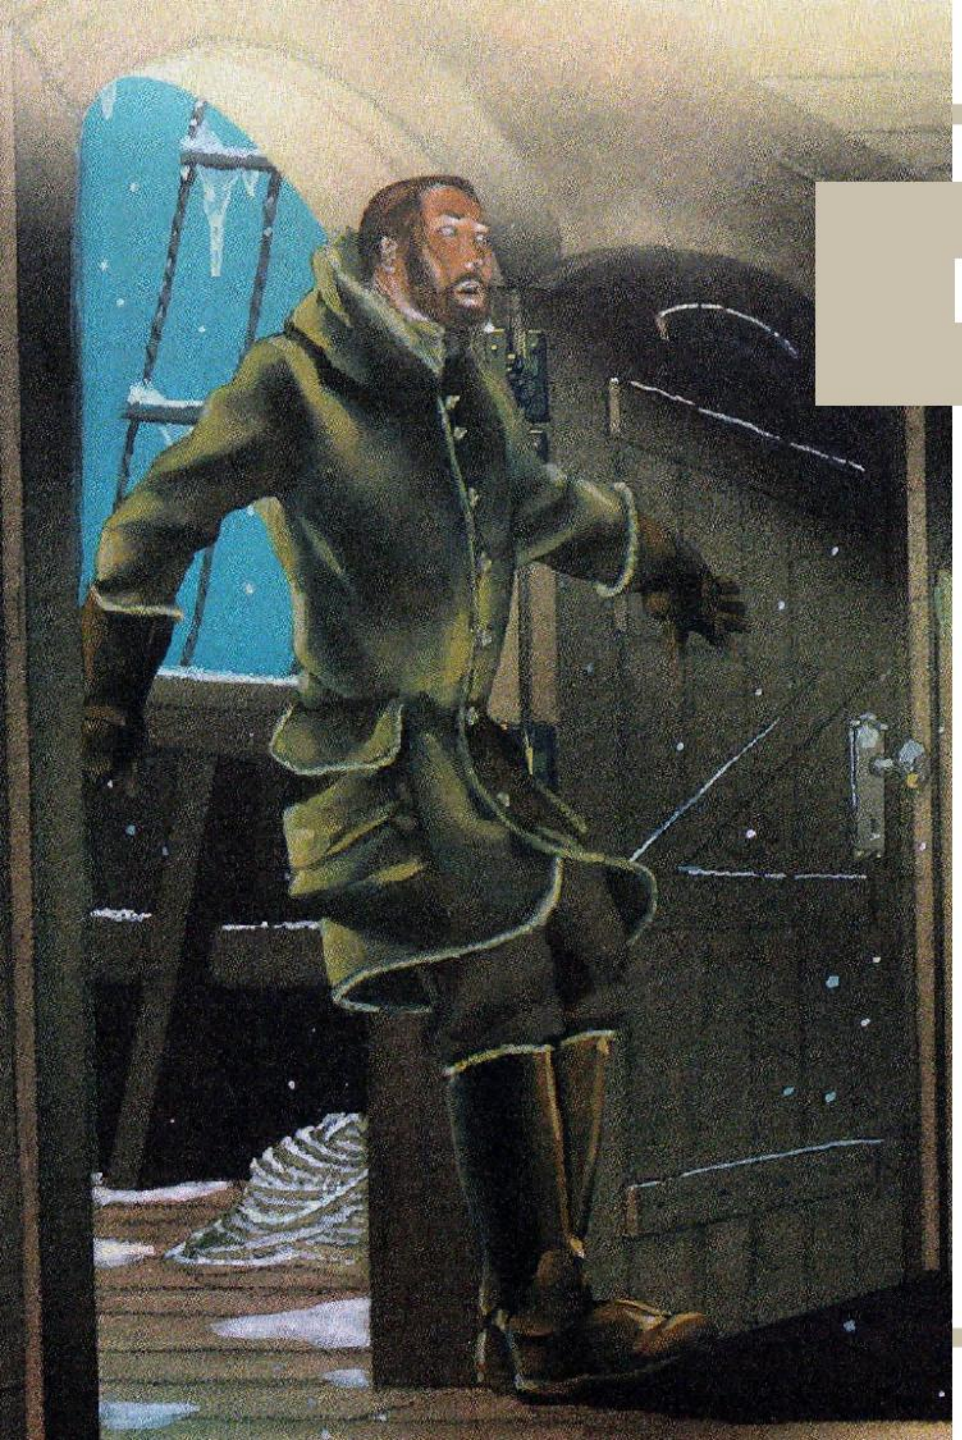






Next

The monster asked Victor to make another monster, because he was so lonely. Victor made it but he was afraid she would also do bad things.Then he destroyed her.



In The End

The monster was boiling with rage, that he killed Victor and then,he threw himself in the fire. They both die.

I want to share this book

Because

I learned that you can't judge people by their appearance.
We should embrace everyone with love and caring.
